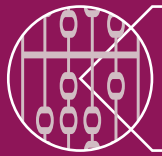
Role of JUSP in gathering usage statistics and informing decision making

Laura Wong

Outline

1. Quick overview of JUSP
   - What is JUSP?
   - How work with data
   - What JUSP does and doesn’t do
2. Examples
   - What to keep
   - Where to invest
   - When to act
3. Usage stats and Open Access

What is JUSP?



JUSP is a managed service that collects COUNTER usage reports on behalf of libraries

Started in 2010 as the Journal Usage Statistics Portal with a higher education and Jisc agreement focus

View usage statistics at the journal, book, database, and platform level

Reduces the burden of data collection and collation so that libraries can focus on reporting and analysis

How JUSP works

Monthly data collection

- Over 100 suppliers or platforms: https://jusp.jisc.ac.uk/participants/
- Using SUSHI
- Quality assurance: inspect reports and resolve issues

Reports and visualisations

- Libraries access via an online portal
- Email delivery
- Harvest into library systems via SUSHI

Ongoing maintenance

- Data restatement
- Liaising over data queries and issues
- Filling gaps
- Platform changes

What does it help libraries do?

Regular reporting

Gather stats for regular reporting (both internal and external)

Evaluation

Assists in understanding e-resource usage

Packages or individual purchases

Informing decisions

Helps inform collection management decisions

Renewals, substitutions, cancellations, purchases

Strategy

Value and impact

Promotes the libraries

Makes effective use of staff time

What’s not in JUSP

- Cost information
- Non-COUNTER compliant stats
- Subject or curriculum information
- Who is viewing the content

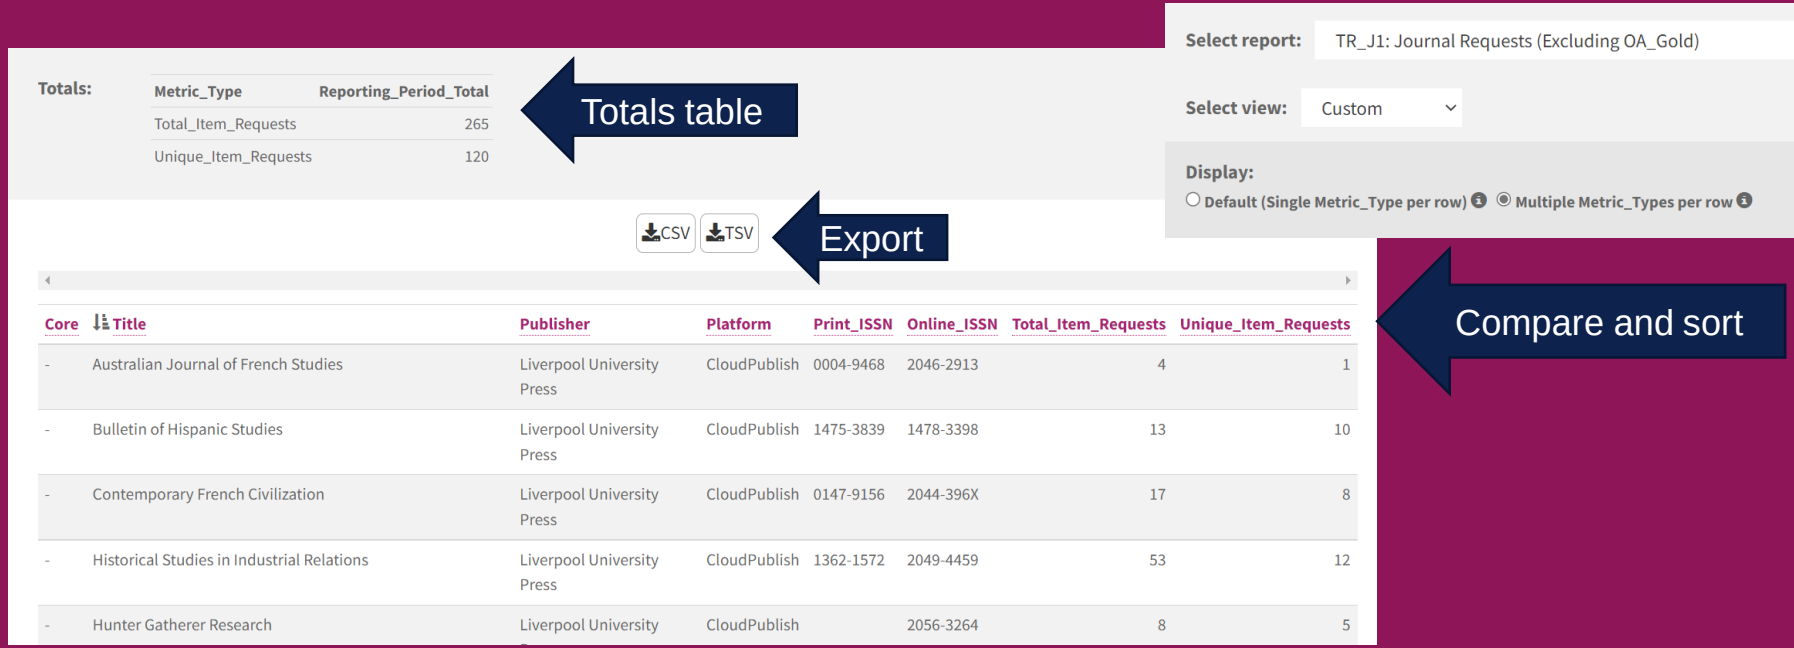
Examples

- What to keep
- Where to invest
- When to act

What to keep

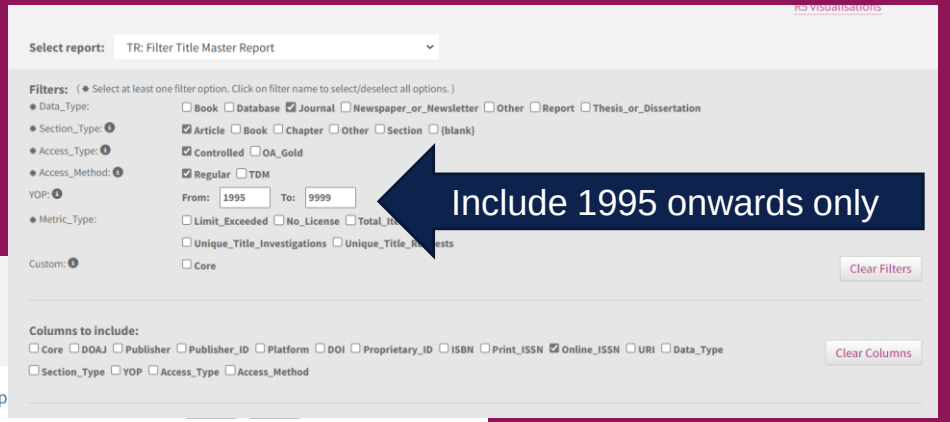
Re-arranged TR_J1

JUSP “customised” standard view – same stats, different layout



“Subscribed” usage

“Frontfile” only



Include 1995 onwards only

Totals:

Metric_Type	Reporting_Period_Total
Unique_Item_Requests	70,829

Usage stats and Open Access

- Transitional agreements “Read & Publish”, fully OA deals, OA monographs
- Data analysis to support Jisc licensing and evaluation
- COUNTER Item Reports
- Global usage stats?
- Interviews

Summary

- Pulls usage stats together
- Reduces the burden of data collection and collation
- Flexible reporting tools to support ongoing analysis
